A MESSAGE FROM THE SECRETARY-GENERAL OF MMUN 64

Welcome to MMUN 64! We are pleased to have you all here with us for yet another simulation of international leadership. The potential here for each of us to learn a little more about perspectives from around the world never ceases to encourage me, and your participation is the foundation of that potential. Our staff have worked throughout the year to bring you our consistently unique, challenging, and life-changing experience and I urge you all to delve into your committees and embrace the learning all around you.

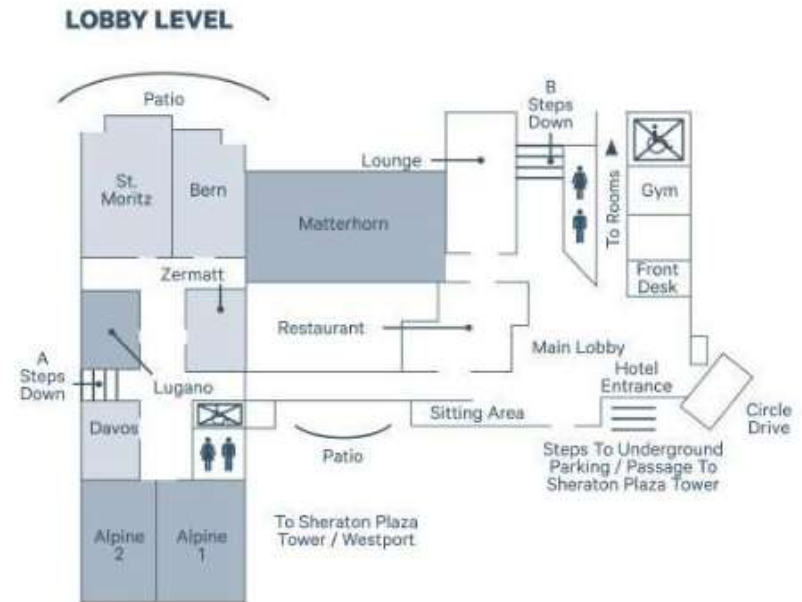

The student group that comprises MMUN's participants - overwhelmingly students new to Model UN - sets it apart from other conferences and makes it an environment that is more able to deliver on the goal of teaching than any other. In addition, the staff I have worked with over the last five years has never failed to impress me with their dedication to MMUN and our delegates. I am certain that, as always, you will walk away with a reinforced appreciation for the complexity of the international sphere and the issues we all face as a global community.

Best Regards,
Lachlann Swanson
Secretary-General, MMUN 64
